DEFINITIONS AND SPECIAL INSTRUCTIONS**1. Scope of survey**

This survey covers the quantity and sales of apparel cut, knit, or custom made in the United States. Headwear, accessories, trimmings, findings, hosiery, and footwear are not within the scope of this survey.

Who would report

Manufacturers making garments from materials they own, including custom apparel manufacturers.

Jobbers having garments made for them by U.S. contractors.

Government contractors making garments for the state and Federal Government from government-furnished or their materials.

Operations involved in manufacturing, jobbing, or government contracting should complete the report.

Operations solely involved in contracting (producing garments for manufacturers or jobbers from materials furnished by them), wholesaling, or importing (see definitions below) should indicate the nature of their business in Part IV and return the form.

If you have more than one type of operation (manufacturer-contractor, jobber-importer, etc.), report only that portion of your output cut or knit in the U.S. made from materials owned by you or by the government.

2. Figures to be reported

This report requires reporting of quantities cut or knit (in units), and shipments value (in thousands of dollars), and fabric type (in units), for each garment type made. Establishments receiving an annual report are not required to report fabric type.

a. Shipments

The value represents the net sales price f.o.b. plant, to the customer or branch to which the products are shipped, net of discounts, allowances, freight charges, and returns. Shipments to your own branches should be assigned the same value as comparable sales to

unaffiliated customers, i.e., the value includes an appropriate allocation of company overhead and profit.

b. "9802" (formerly "807") garments

Include garments cut or knit in the United States which were sent abroad for sewing and then imported back into this country under the provision of item 9802 (formerly 807.00) of the Tariff Schedules of the United States.

c. Imported garments

Exclude finished garments which you import (but see "9802" garments above). If records are not kept separately on the shipments of imported versus domestically made garments, please estimate the quantity and value of the imported goods and exclude these from this report.

d. Resales

Products bought and resold without further manufacture should not be included in shipments.

3. Structure of report

For each garment on the item Reference List that you manufacture or job, report the quantity cut or knit, the value of shipments, and the fabric type. Only column 1 is used.
